SHADE SERIES

Modernise your outdoor living area with a Pacific Outdoor Solutions Shade Series Flat Roof.

Our range of Flat Roofs are a cost-effective way to extend and complement your outdoor space and living area. With the right vision and planning, a flat roof can create a new living space that combines the best of the indoors and outdoors.

Flat roofs are an excellent way to add shade and privacy, or create a transitional area, while preserving a sense of openness to the outdoors.

Designed and manufactured in-house, from light weight, corrosion resistant aluminium, we can accommodate your requirements to compliment any existing structure. The aluminium frame and joinery are powder coated in architectural and commercial grade powders to match your existing exterior structure, or any colour that you may choose.

The roofing sheet comes in a variety of profiles and colours as well as various tint options to filter and block sunlight and UV rays to desired levels.

LOUVRE SERIES

At Pacific Outdoor Solutions, we are experts in louvre roof systems. Our range of roofs are designed and manufactured in our Hawke's Bay factory.

In the ever-increasing enhancement of outdoor areas, louvre roof systems have become more and more popular all weather entertainment areas. Louvre Roofs offer superbly ventilated areas with perfect sun protection. Their sharp design adds a very contemporary feel to any outdoor area. The Aluminium blades lock together to give a watertight seal and an integrated guttering system drains water through concealed downpipes.

Seamless optional LED lighting keeps the design minimalist and clean. Heating options and integrated fabric side screens increase the use to all year round.

Each and every Louvre Roof is tailored to your exact requirements by our in-house designers.

Being able to control your outdoor living environment at a touch of a button gives you the flexibility to enjoy your outdoor space, whilst warming and cooling the interior all year round in all seasons.

The one-piece extruded aluminium louvres and stainless-steel components are engineered to the highest standards, making the Pacific Outdoor Solutions Louvre Roof suitable for extreme heat, well-below-zero temperatures, super-strong winds, and corrosive coastal conditions. And our louvre roof range now offers even greater versatility with new technology and control system options available.

BEST OF BOTH WORLDS

Closed for Heavy Rain

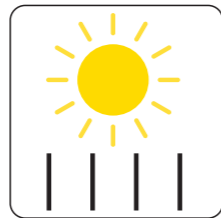

Once closed, the interlocking blades provide weather protection and channel water to the surrounding gutters.

You will be able to enjoy your outdoor area even when the weather turns.

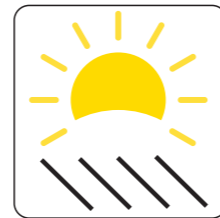

Partially Open

In changeable weather the blades can be partially opened to allow ventilation whilst still providing weather protection.

Fully Open

With the blades able to be opened to any angle, one can enjoy full sun and sky on clear days and nights. Bring the outdoors in and enjoy the light and feel when fully opened.

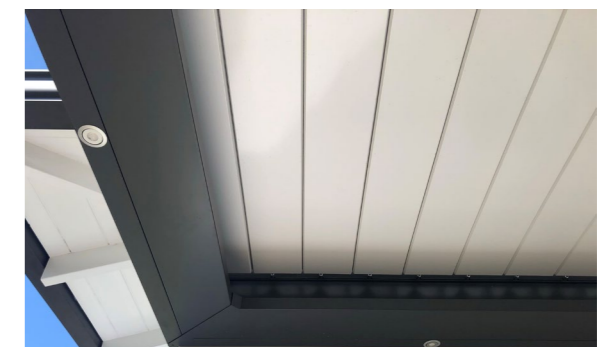

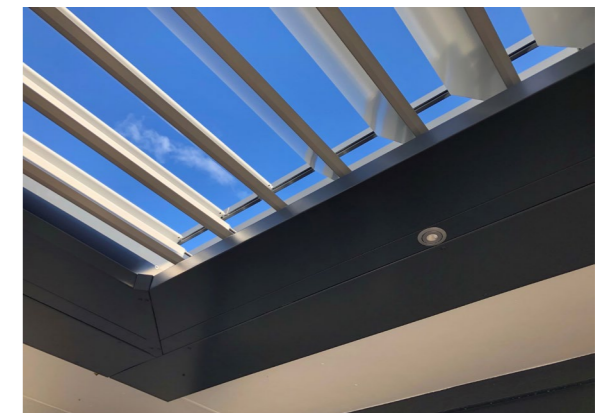

Angled Open

When required, the blades can be angled to reduce direct sunlight, heat and glare. Ideal on hot days when airflow is desired without the risk of sunburn.

BENEFITS AND FEATURES

- Smooth uncluttered appearance
- Colour matched to your personal tastes
- Peace of mind for near coastal locations
- Enormous design flexibility
- Extremely fine control of sunlight, shade and ventilation levels for warmer winters, cooler summers, and more outdoor comfort
- Beautiful sleek ceiling look when closed
- Peace of mind about structural strength and durability
- Integrated Gutter to provide a clean, seamless look
- Suitable for large outdoor areas
- Remote controlled with 24/7 rain sensor

ACCESSORIES AND OPTIONAL EXTRAS

Rain Sensor

Built in Rain Sensor on our Louvre Roof – when it starts to rain your roof will automatically close to protect you and your outdoor area from the rain, and once rain has ceased, can automatically reopen to where you had your blades positioned.

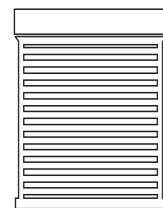

Remote Control

With the touch of a button, setting your Pacific Louvre Roof to suit your preferences has never been easier. We now have available the Daisy Cloud Operation as an optional extra, which allows you to have a Wi-Fi interface from your smartphone or tablet directly to your Roof.

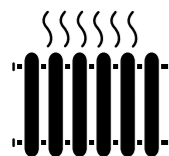

Led Lighting

Lighting is available as an optional extra. Led down lights are installed to the perimeter beams creating an elegant atmosphere and allowing you to enjoy your outdoor space longer into the evening. Or if you are after something different, optional colour changing Led strip lights can be installed into the roof design.

Drop Down Blinds

We offer a range of outdoor blind options for additional protection from the elements. Choose Manual or Automated operations, and choose from a wide range of colours and fabrics.

Heating

Bring warmth to your outdoor living area with our heater option. The slimline design is aesthetically pleasing whilst giving you enough warmth to enjoy your outdoor area all year round.

Colours and Coating

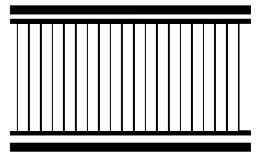

Because our range of roofs are tailored to your requirements, you can choose from our wide range of powder coat colours to compliment or match your home.

PACIFIC RANGE OF PRODUCTS

Gates and Fences

Pacific Outdoor Solutions' range of fencing solutions offer a variety of tailor-made styles and designs from modern to contemporary, providing you an attractive yet functional fencing solution to suit your application.

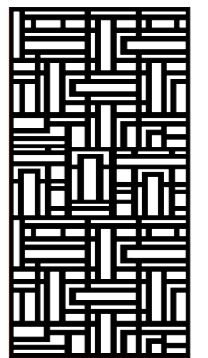

Designed and manufactured in New Zealand from power coated aluminium, our range of Slat, Louvre, Tongue and Groove and Tube products provide great visual appeal, security and weatherability.

Decorative Screens

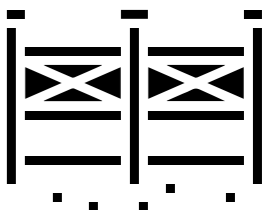

Also designed and manufactured in New Zealand from laser cut aluminum sheet, our Decorative Screens are custom made to suit your application, from size to colour.

- » **Wall Art and Feature Walls** – Floor to Ceiling or wall hung decorative art to create a striking focal point. Use frames and contrasting colour to further enhance the appeal.
- » **Privacy Screening** – Both indoor and outdoor setting, enjoy your indoor/outdoor entertaining areas to their full potential by introducing privacy, shade and wind protection.
- » **Landscaping Solutions** – Fencing, Gates, Water Features. Enhance your landscape while providing privacy and security by way of fencing, gates, balustrades, security doors and lighting / water features.

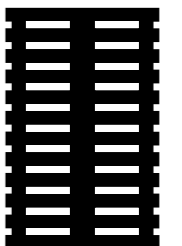

Architectural

At Pacific Outdoor Solutions we don't stop at our core range of products, we can custom make products to enhance your outdoor and indoor living areas. We can design products based on your ideas, or you can choose from our ever-increasing product range.

Outdoor Heat Pump and Gas Bottle Covers

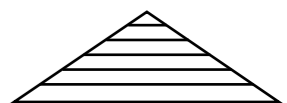

Outdoor heat pump units and unsightly gas bottles can be hidden away behind our custom-made covers. We can manufacture a cover that will integrate with the exterior aesthetics of your home. Made with aluminium and your choice of timber composite top or aluminium top, we can powder-coat to match your existing exterior structure, or any colour you choose.

Decorative Aluminium Gables

Our decorative aluminium gables are one of the quickest ways to enhance your home's overall appearance. Stand out from your neighbours with one of Pacific Outdoor Solutions decorative gables.

Choose your design and powder-coat to complement the architectural features of your home.

Interior Partitions

Interior partitions create a contemporary and stylish look that give visual impact to any room in your home. Choose from either laser cut decorative screens, or stand out with vertical or horizontal slats.
